

The 30th Annual CONTINUING CHALLENGE HazMat Emergency Response Workshop

The 2019 HazMat Workshop dates are **September 24-27, 2019**. This change is for 2019 only. Please Save These Dates! We look forward to seeing you for another year of outstanding hazardous materials training.

For 30 years, the Continuing Challenge has served as the nation's largest gathering of hazardous materials emergency responders, where basic and advanced knowledge and skills, and innovations, are presented. If you have something to share, please consider being a member of our faculty. The following is a list of course content that is of particular interest to workshop students.

- Basic HazMat emergency response advanced courses
- Industry specific topics such as refinery, rail, agriculture
- Product specific such as chlorine, ammonia, propane, HF
- Alternative fuels
- Radiological
- Monitoring/detecting/testing
- Responder health and safety
- Environmental concerns
- Professional skills in leadership and communication
- Innovative approaches
- Case Studies/Lessons Learned/Lessons Incorporated

Classes may be presented in lecture, panel discussion, demonstrations, or field activities format that students can bring back to their respective organizations to implement. If you know someone who you believe would be an excellent instructor at the Continuing Challenge Workshop, we encourage you to forward this information to them or provide them our website link at www.hazmat.org.

As the **Important Dates to Remember for 2019** approach, we will send you an email letting you know you are able to register for one of the categories listed below. Thank you for your continued support.
