**Purpose:** The specific purpose for the Continuing Challenge Committee is to educate, encourage and promote safe inspection practices, response, intervention, mitigation and investigation of hazardous materials incidents in a manner that safeguards and protects the health and safety of the emergency responder and the general public. This purpose is achieved by conducting an annual hazardous materials conference known as the "Continuing Challenge Hazardous Materials Workshop." The Committee is comprised of government and industry emergency response organizations promoting timely and appropriate response to hazardous materials incidents that might occur within the community.

Each year, The Continuing Challenge Workshop honors excellence in the field of hazardous materials response with the annual awards program. There are a variety of awards that may be granted on an annual basis, with a maximum of one award per category. **Honor deserving Haz Mat Responders by submitting a nomination.** More information available on the About Us section of the website:

[HazMat CC Awards - Nominations](#)

The Continuing Challenge Workshop sessions & activities provide a comprehensive, engaging experience for attendees:

- [Photo & Name That Unknown Contests](#)
- Continuing Education Credits
- Awards
- Networking opportunities, merchandise, and much more...!

**Our mission is to provide safe response training for all emergency responders to hazardous materials incidents affecting public health and the environment.**
